

# NEW ADVANCE PATENTED LOOP TECHNOLOGY

Our Fire Extinguishing Ball is the World's Most Advanced and Unique fire extinguishing ball in the market. You can make these fire safety products your first line of defense to fires before they have the chance to become destructive.

The best part about fireball extinguisher? They self-activate, ensuring ultimate protection whether you're around or not.

## How the Fireball® Works?

In just 3 to 5 seconds after contact with the flame, the blaster located inside the product is activated. An immediate burst is caused, the extinguishing powder spreads over an area of 3 to 4 Cubic meters. This pushes the oxygen outside the fire zone, resulting in fire going out instantly. The extinguishing agent then spreads on the burning material, which definitively breaks the Source of combustion.

No training or skill is required to use the Fireball®.  
**It is accessible to everyone.**

## How to Use FireBall®?

Just simply throw or roll the ball towards the fire. The Blaster will get activated automatically and instantly spread the extinguishing agent to extinguish the fire without risking anyone's life. If a fire breaks out in an unoccupied room, the fireball will activate in contact with the fire. With a big boom to alert everyone nearby to its extinguishing action with this feature, the fireball can be placed in any location presenting a fire risk, such as in your kitchen, or above the often overloaded sockets, near an electrical cabinet, in the storage room, in hospital, in school, in industries... In short, everywhere and everything you want to protect.

## TECHNICAL INFORMATION

- ❖ **Total Weight** : 2.0 kg (± 0.2 kg)
- ❖ **Diameter** : 170 mm
- ❖ **Activation Time** : 3 - 5 Sec
- ❖ **Warning Sound** : 120 -140 dBA
- ❖ **Fire Extinguishes for an area of 3-4 m<sup>3</sup>**
- ❖ **No Maintenance Cost Required for Fireball®**

## Active Use

Throwing Fire Ball into the fire - When a fire erupts, take the nearest available Fireball extinguisher and simply throw it into the fire. The ball will naturally fall into the base of the flame, where it is most needed, and activate within 3-5 seconds. No need to pull pins, or to get close to the fire. No special training or skills required.

## Passive Use

Self-Activating wall Mount, One of the great benefits of Fire Extinguishing Ball is the fact that it can self-activate in the presence of fire when no-one is present. If positioned in the appropriate high-risk area where most fires are likely to start, it will self-activate upon reaching the appropriate flame or spark and extinguish the fire. No special training or skills required.

## INSTALLATION

### High Risk Areas

Fire Extinguishing Ball is best mounted in high risk areas such as kitchens, electrical circuit breakers, overloaded electrical outlets, or near fireplaces.

### Any Visible Areas

Fire Extinguishing Ball can be placed on a Kitchen, shelf top, tabletop, storage Room along the hallway or any visible area of easy access.

**The  
Simplest  
and  
Fastest  
way to  
Extinguish  
Fire**

## Advantages of FIREBALL

- ✓ **Easy to use** : No Training required, very easy to use, No pins or moving parts or mechanical parts. Person of any Age group can use
- ✓ **Compact and light** : The diameter of the ball of 170mm and its weight if 2.0 kg which makes it so compact and easy to handle, store and transport
- ✓ **Auto-Activation** : The fireball activates as soon as it touches the flame, in empty space or zone. 24 x 7 activated to protect you
- ✓ **Alarm function** : The sound emitted by 140 dBA does not exceed the limit values set for physical agents by experts from the ACGIH (American Conference of Governmental Industrial Hygienists), values which can be applied for evacuation fire alarms.
- ✓ **Increased security for users** : No need to approach the base of the flames to extinguish the fire
- ✓ **No false alarms** : The ball does not activate in the absence of fire
- ✓ **Flexible** : Its aesthetic design and easy installation allow it to be simply placed on a table or hung on a wall thanks to its metal support
- ✓ **No maintenance required** : The product performance period is 3 years, during which no inspection or maintenance measures are required
- ✓ **Lowest cost of protection** : As a user, you will benefit from the most advantageous cost of protection throughout the life of the product
- ✓ **Low-cost & Environment friendly** : Lowest cost protection as compared to high risk of fire. Also fire extinguishing agents is Environment Friendly
